

S.M.A.R.T Community Exchange (SCE)

Committed Enhancing the Skills and Experience of U.S. Military Veterans

S.M.A.R.T Community Exchange (SCE) is committed to empowering U.S. Military Veterans of all ages. Our advocacy efforts are geared to ensure that all Veterans obtain the best job training so that they become the most successful and well adjusted in our nation's history.

We enhance the skills of our Veterans through training that expose Veterans to new opportunities, enhance their job skills, empower their economic independence, and help foster Veterans readjustment to civilian life.

Workforce Training

The key aspect of our program is comprehensive hands-on job training and reintegration workforce training. This is one of the most critical parts of a Veteran's readjustment to civilian life. While serving, many veterans learn real life professions but there is a large portion of our servicemen and women that do not. Our plan to help reintegrate these Veterans into society must include vocational training. Along with SCE partners, we can offer our Veterans the head start and marketplace **job training** they will need to reenter society as productive citizens.

Training Programs

All SCE workforce training programs are provided and supported by our sponsors, all size enterprises and organizations representing numerous industries from around the world. SCE helps the corporate partners maintain a competitive advantage by preparing workers for skill sets needed tomorrow as well as today. Training is versatile and regimen is shaped specifically for the skills that our sponsor is looking to develop in its employees. Training is conducted in online classrooms, mobile labs or onsite at the company.

SCE also unites the skills and experiences of military Veterans with other professionals to rapidly deploy emergency response teams into crisis situations. The Veteran-Focused Response concept; Many Veterans returning home after fighting years of war, can find a renewed sense of purpose for their skills and experiences through Disaster Mitigation, Management and Response, as Climate Risk present many of the same problems that confront troops; limited resources, unstable populations, horrific sights, sounds and smells. The skills cultivated on those same battlefields – risk assessment and mitigation, teamwork and decisive leadership – are invaluable in crisis situations.

S.M.A.R.T Community Exchange (SCE) Atlanta

Atlanta, the leading transportation hub and high-tech corridor in the South East, is not only be the first S.M.A.R.T Community Hub in North America, but the first S.M.A.R.T innovation driven business community.

The SCE can potentially accommodate up to 500 domestic and international companies and 15,000+ employees, making it the largest Independent workforce training hub of its kind - home of all size technology companies from around the world and their R&D facilities. SCE is the leading Innovation hub for S.M.A.R.T Community market applications, and staffing needs in technology, finance, engineering, energy, environment, defense, materials science, infrastructure, transportation, disaster reconstruction, and more.
